# INTRODUCTION :

Balraj Rubber And Roller Industries, based in Chhatrapati Sambhaji Nagar (Aurangabad), Maharashtra, India, is a leading manufacturer of Rubber Rollers, Tank rubber lining, Pipe rubber lining, transfer & compression moulding since 3 decades. We manufacture and customize the rollers you need to your exact specifications. Our quick and personalized process helps us manufacture new rollers or cover your existing ones using a variety of materials to meet your unique needs. Regardless of the product's configuration, application, or production volume, we have everything it takes under one roof to do the job.

In addition to being a trusted supplier of new industrial rollers & cores, BRRI specializes in rubber and Poly Urethane rollers and PU moulded parts .

## Rubber Roller

Rubber rollers are used in all kinds of industries and for different purposes. We handle rubber coatings based on your requirements and specifications, and we also provide optimization of your rollers to ensure that you get the most from them. Rubber rollers at BRRI are made from both natural as well as synthetic rubber depending on your needs. we provide renovation for all kinds of rollers. Depending on the state of the rollers, we assess whether they require a new complete rubber coating or if the worn rollers can be renovated by, for instance, grinding, polishing, bending and cutting camber and grooves.

## PU Roller

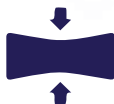

We Are Also One Of The Leading Manufacturer Of Industrial Polyurethane Rollers (Pu). Our Urethane Rollers Exhibit Excellent Wear Resistance, Low Friction, And Superior Load-bearing Capabilities, Making Them Ideal For Demanding Applications. With A Focus On Precision, Durability, And Reliability, Our Products Are Trusted By Businesses Worldwide.

HARDNESS FROM  
25 SHORE A UP  
TO 70 SHORE D

HIGH ABRASION  
RESISTANCE

GOOD COMPRESSIVE  
STRENGTH

EXCELLENT  
MECHANICAL  
PROPERTIES

EXCELLENT  
TEAR AND TENSILE  
STRENGTH

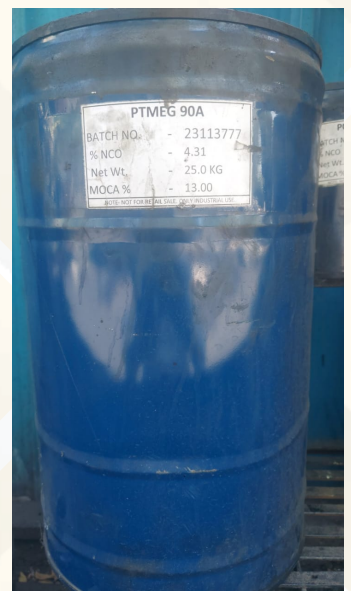

RESISTANCE IN  
WIDE TEMPERATURE  
RANGE

OIL  
RESISTANCE

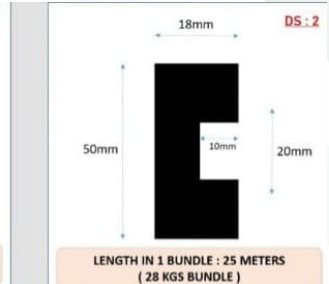

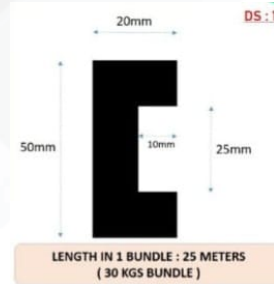

BRR I Acquired complete knowledge for the manufacturing of prepolymer which make it possible to make tailor made product depending on application demand.

Prepolymer grades such as – PTMEG / PPG/polyester can be manufacture as per the requirement which make it possible to offer various formulations , grades as per hardness from 30 shore A to 75 Shore D

## Dam Gates Rubber Seal

Dam Gate Rubber Seals are known for their sturdiness, easy installation, dimensional accuracy, high strength and perfect finish. The provided seals are widely demanded to be installed with dam gates for prevention of leakage of fast flowing water..

## Moulded parts

Balraj Rubber And Roller Industries offers a comprehensive selection, including bumpers, bushings, castings, mouldings, rollers, PU coating and more. As a custom rubber moulded products manufacturer, our unique world-class design, production, and development facilities contain avant-garde equipment fit for providing our renowned industry capacity and engineering expertise to help you develop assemblies and machinery of the highest quality and function.
